Hello Elaine,

Sorry I missed you this morning at the appointment. I hope you're feeling better. I just wanted to write you a quick email on the pricing that you would be looking at for taking Credit Cards through your website. We would be using a gateway called NMI for your processing. So, the list of fees that I'm going to put in here are the combined fees for both NMI and UMS as the processor.

### Processing Fees:

1.15% monthly fee to process Visa/MasterCard with a .17 transaction fee per customer using their card.

\$16 monthly fee, which gives you a breakdown of what you actually did.

.25 Batch fee. This is to reconcile all the card transaction for the day to send them to the bank for processing.

\$40 Annual Fee.

\$5.50 monthly fee for PCI Compliance. This fee is a regulatory fee from Visa/MasterCard/Discover. This keeps you legal.

So, to give you an example; With 1800 customers who would be paying their bill through the link on your website, at the average bill being \$101 (Stats given to me from meeting), you'd pay around \$2,420 a month for processing approximately \$181,000 dollars in monthly billing.

I want to remind you that these numbers are proximate, and not to totals.

We also discussed about you possibly offsetting some of these cost by passing them onto your customers. If you have any other questions, please let me know. We're really excited to working with you. Talk to you soon.

Chad Stambaugh,

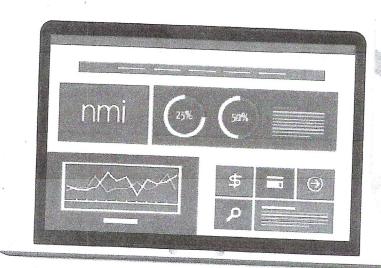

**UMS Banking**
